

# Safety Foam™

**SAFETY FOAM™** gently cleans the heaviest soil and mineral deposits from toilets, urinals and water waste traps.

SAFETY FOAM™'s blend of several acids and foaming detergent removes soil better, safer And faster than Muriatic Acid (Hydrogen Chloride) bowl cleaner and without fumes nor injury to the chrome flush valves. SAFETY FOAM™ proves that you do not have to breathe dangerous vapors nor harmful fumes to renew the worst looking fixtures. Maintain the best ones with an economical solution of 3 parts water and 1 part SAFETY FOAM™. Only minute amounts of actual liquid are used due to SAFETY FOAM™'s unique ability to foam in all dilutions.
