

Deb® InstantFOAM Alcohol

Product Information Sheet

Description/Specification: Alcohol-based Foam Hand Sanitizer, perfume and dye-free, to use without water to kill 99.999% of many common germs in just 15 seconds. NSF E-3 Rated for hand sanitizing in food applications, EcoLogo Certified®, USDA BioPreferred Designated, and formulated for one dose (.63 mL) application.

Usage: Ideal for use inside the washroom to complement hand washing, or outside washroom at the work-point or on the move. Ideal for food manufacturing, foodservice, and healthcare.

Method of Use: Apply direct to clean hands and rub across all areas of the hands for -30 seconds, until dry.

	Feature	Benefit
Improves Health & Safety	Hygienic	The unique patented pump and cartridge are ultrasonically sealed and designed to prevent air ingress into the cartridge minimizing the risk of external contamination.
	NSF E-3 Rated for Hand Sanitizing	Perfume-free and dye-free, will not taint food when used as a hand sanitizer supplemental to handwashing.
	InstantFOAM Formula	4 times easier to spread than gels, improving germ-killing by 10 times (1 log) compared to equivalent alcohol gels.
	Motivates Skin Care Compliance	Pleasant to use with rapid activity against many common organisms in only 15 seconds, can be used quickly and easily to encourage compliance.
	Dispensers	Dispensers with BioCote™ protection are guaranteed for life and are available Touch Free or color-coded with usage instructions to encourage hand washing best practice.
Environment	EcoLogo Certified®	EcoLogo provides customers with assurance that the products meet stringent standards of environmental leadership.
	USDA BioPreferred Designated	The USDA Certified Biobased Product label assures the consumer that a product or package contains a verified amount of renewable biological ingredients.
	Recyclable Packaging	All cartridge components and packaging are recyclable while formulations are biodegradable.
Reduces Cost	No Wastage	The cartridge collapses during normal use to ensure full evacuation of product.
	Highly Economical	Only one dose, .63 mL, is required to provide effective skin cleansing.
