| <b>Dimensions</b>  | 18" x 10 1/8" x 9 1/2" |

## MICROFIBER WET MOP PROCEDURES

Proceed with pre-moistened mop heads (white side up) to bucket filled with recommended 150-200cc of water and chemical per mop. Press mop so Velcro® system fastens.

Begin by mopping edge of baseboard from front to back of room. At far edge of room, begin mopping in recommended figure "8" pattern. Mop restrooms last.

Place feet on each edge of wet mop and then pull up or rotate mop handle while mop frame begins to pull away from mop. Pull mop from frame and place in soiled laundry bag.
