SD-20™ (Aerosol) ALL PURPOSE DEGREASER

PRODUCT DESCRIPTION:

SD-20 Aerosol is everybody's favorite All-Purpose Degreaser. It will clean painted walls and woodwork and will remove grease from the inside of cabs on tractors. SD-20 will clean white-wall tires whiter than any product of its kind on the market today.

SD-20'S clinging foam penetrates and emulsifies dirt, grease, and tough soil. Like many Spartan products, SD-20 cleans by "chemical action" rather than physical action. Just spray and wipe. The SD-20 can may be turned upside down and the spray works just as well.

SD-20 contains no harsh caustics or metasilicates to scratch or harm washable surfaces.

SD-20 meets USDA former guidelines and carried a "C1 rating.

DIRECTIONS FOR USE:

Washing Walls:

Remove pictures and other obstacles from the wall. Move furniture several feet away from the wall to avoid any spray mist that might fall on surfaces that are not washable. Have a rinse bucket and a stepladder handy.

1. Start at the top, spraying SD-20 from left to right and down about 4 feet.
2. Use a sponge to spread the foam evenly.
3. Set rinse bucket on ladder stand and wipe off the dirty foam using a small Turkish towel, rinsing the towel as it becomes dirty.
4. Continue to wash the wall from the top down to about 4-feet from the floor.
5. Remove the ladder from the room.
6. Continue washing the bottom half following the same procedure until you are finished with the room.

Spray SD-20 on fingerprints and wipe off with a damp cloth, there is no need to rinse.

Cleaning Plastic or Leather in Automobiles or Aircraft:

Spray on, let set a moment and wipe off with a damp cloth. SD-20 will clean the luggage and heel marks off the hotel and airport walls. Just spray and wipe.

Around Swimming Pools:

SD-20 is excellent for removing body oils in and will clean yard umbrellas, plastic lawn chairs, barbecues, grills, and many other outdoor utensils.

SPECIFICATION DATA:

pH – 10.5 – 11.5

Fragrance – Light Citrus

Solvents – 2-Butoxyethanol

Stability -- Shelf @ 24°C/75°F -- one year minimum

Contains biodegradable surfactants
