

Beauty Seal™

Polish and Preservative

BEAUTY SEAL™ Polish is a generation ahead of its time with speed, beauty and durability. It leaves a surface incredibly slick and soil resistant, without the drudgery of hard work. Made from a new generation of plastics, including silicones, **BEAUTY SEAL™** Polish enhances the surface of almost any area where used. Dries clear and shiny.

For sealing and polishing chrome flush valves to prevent corrosion. For stainless steel trim, enamel, aluminum and vinyl. For all types of motor vehicles, boats and recreation vehicles.

BEAUTY SEAL™ Polish is an extremely high gloss durable finish for all types of industrial and commercial vehicles. On chrome, fiberglass or paint it seals the surface with a brilliant-gloss which resists soil. Can be washed with mild detergent without disturbing sealed surface.

Maintain these surfaces indefinitely with a mixture of one part of **BEAUTY SEAL™** with up to 7 parts of clear water.

- ANTISTATIC
