

SMOKE & ODOR ELIMINATOR

PRODUCT DESCRIPTION:

Airlift is a water-soluble air freshener formulated to control and eliminate unpleasant odors whenever and wherever they occur. While regularly scheduled cleaning and disinfecting procedures eliminate the soils and bacteria which cause most odors, people, pets, food, and accidents often cause malodors which become airborne and stagnate or permeate environmental surfaces, making the air unpleasant. Airlift is Spartan's solution to a broad range of commonly encountered offensive odors requiring odor control.

SMOKE & ODOR ELIMINATOR:

Unique, Airlift Smoke & Odor Eliminator is a combination of surfactants, solvent and carefully chosen odor eliminating ingredients blended to provide fast, efficient elimination of problem odors. Airlift Smoke & Odor Eliminator chemically alters, neutralizes and destroys offensive smells. Airlift Smoke & Odor Eliminator's active odor neutralizing ingredient permanently binds up many types of offensive airborne molecules (osmophores). If the odor generating material is not reintroduced into the room, the room will remain deodorized.

FAST AND EFFECTIVE:

Airlift's formulations incorporate raw material ingredients whose primary function is elimination of odors. CWQ, a special quaternary, assists the initial control of offensive odors caused by stale air, mildew, urine, vomit, etc. CWQ enhances the effectiveness of other deodorizing ingredients in Airlift; so, treated areas remain fresh for extended periods of time. Spray a light mist on drapes, carpet, fabrics and upholstered furniture to eliminate odors and refreshen fabrics. Always test in an inconspicuous area for colorfastness.

HANDLING AND STORAGE:

Non-flammable. Airlift does not require special handling or storage. The diluted product will not irritate skin or nasal passages. Formulated with environmental needs in mind, Airlift products are biodegradable and phosphate free.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet.

General Odor Treatment:

1. Stand in center of room.
2. Point spray nozzle up toward ceiling corner.
3. Turn and spray in all directions.

Smoke & Odor Elimination:

For Normal Odor and Smoke Neutralization:

1. Remove gross source of malodors such as used ashtrays.
2. Use finest mist.
3. Lightly mist upper portions of room near ceiling.

NOTE: For heavy build up of odors, such as smoker's rooms in hotels, daily use will help to neutralize malodors and freshen draperies, bedspreads and carpets.

For Fire-Damaged Areas/Odor Elimination:

Apply with sprayer or fogger. Use finest mist. Apply directly to damaged or burnt surfaces whenever possible. Lightly mist upper portions of room near ceiling.

For Fire-Damage Clean Up of Hard Surfaces:

Spartan Airlift Smoke & Odor Eliminator mixed with diluted BH-38 Degreaser cleans and deodorizes hard surfaces damaged by fire. Follow label instructions for BH-38. Add 2 oz. or more of Airlift Smoke & Odor Eliminator to each gallon of diluted BH-38.

For Fabrics:

Spray a light mist on drapes, carpet, fabrics and upholstered furniture to eliminate odors and refreshen fabrics. Always test in an inconspicuous area for colorfastness.
